HOW WE WORK

The HydroWash Process

Four disciplined stages. One flawless result.

1

Evaluate

Comprehensive vehicle inspection to assess paint condition, existing damage and the right treatment plan for your car.

2

Refine

Full surface preparation — decontamination, paint correction and deep surface cleaning before any protection is applied.

DECONTAMINATION

PAINT CORRECTION

SURFACE CLEANING

3

Protect

Application of premium PPF, Ceramic or Graphene coatings and protective sealants, using industry-leading products.

PPF

CERAMIC COATING

GRAPHENE

SEALANTS

4

Deliver

Final inspection and quality assurance before your vehicle is handed back — showroom-ready, every time.
